

BUCKINGHAMSHIRE BROADBAND
Fibre Broadband Deployment

PURPLE	Fibre broadband is already being made available to some areas through existing infrastructure. The Connected Counties programme will be extending the fibre coverage in this area with work beginning in the phase marked on the map, but cannot guarantee superfast for all premises.
PINK	Fibre broadband is already being made available to some areas through existing infrastructure. The Connected Counties programme will be aiming to provide 2Mbps broadband for all by April 2016.
BLUE	The Connected Counties programme will be providing fibre broadband coverage to some of this area with work beginning in the phase marked on the map, but cannot guarantee superfast for all premises. We will aim to provide all areas with access to at least 2Mbps broadband by April 2016.
ORANGE	There are no current plans for fibre broadband rollout in this area, but as part of the Connected Counties programme we will be aiming to ensure that all areas can receive at least 2Mbps broadband by April 2016.
RED	There are no current plans for fibre broadband rollout in this area. According to our Open Market Review, at least 2Mbps broadband is already currently available in this area.
YELLOW STRIPED	These areas may be covered by neighbouring local authority broadband projects. Please contact the Connected Counties team for more information.

PHASE	TIMESCALE
2014	Work Begins 2014
2015	Work begins 2015
