The Subject is 'CONTRASTS' for all age groups:

Life is full of contrasts: tall people and short people; fair skin and dark; cats versus dogs; thin objects and round objects; strong shadows on sunlit beaches; something fast zooming past the slow - think the hare and the tortoise; colourful flowers next to dreary wallpaper; and so much more!

As a photographer, the fun is in highlighting these differences (or creating them!). Go for it. Black and white or colour. Edited or straight off your camera. Give your creativity a shot in the arm and see what you can create. You may be a winner!
