Through Stephen's talk we will discover the witty commentary on contemporary society, with a look at the stories behind some of Gilbert & Sullivan's most famous – and less well known – pieces of music. He will uncover the thinly veiled satire of some of the plots, what motivated Gilbert to write certain operas, and unmask the characters which were deliberate parodies of specific Victorian politicians and notables.

The talk not only provides context to the operas, but also gives an insight into British society, history, culture and world view in the Victorian era.
